Flour Bombing Brief and Rules

FREQUENCY: 122.9

1. The pilot of each aircraft is solely responsible for ensuring all rules of the FAA and air are followed.
2. The pilot of each aircraft is solely responsible for operating the aircraft within the limitations of the Aircraft Flight Manual (AFM) or Pilots Operating Handbook (POH) with regards to opening windows, doors or canopies in flight.
3. Pilots must read this briefing to participate.
4. The aim is to drop the flour bomb into the yellow tub on the blue tarp in the Target Area. The flour bomb closest to the tub is the winner!
5. Participate for FREE. Pick up the flour bombs at 27OK Thomas Landing, the Ponca City Fly-in Breakfast or make your own. (6 cups of flour in a lunch sized paper bag. Duct tape the bag closed and write your contact information on the tape)
6. Keep track of other aircraft in the traffic pattern; keep your eyes outside for situational awareness.
7. Traffic pattern altitude will be 1000 feet AGL (2110' MSL)
8. Traffic pattern will be flown at an appropriate size by all pilots for the density of traffic in the pattern.
9. On final approach, ensure you state "-NXXXX, on final for FLOUR BOMBING" and make all other appropriate pattern calls.
10. To comply with the FAA minimum height from persons or property the flour bombing will be at least 400 feet AGL, this will ensure 500 feet from any spectators or parked aircraft.

11. Thomas Landing and individuals are not responsible for any damage or injury because of participating.
